WITH LIFE

OPTIMIZING THE IMPACT of Tissue Donation

At AlloSource, the human body is an unparalleled marvel capable of extraordinary things. Our work is rooted in humanity as it helps restore a body's functional performance by transforming the gift of human tissue donation into enhanced medical products that enable a life filled with movement, health and wellbeing.

READ
MARC'S STORY

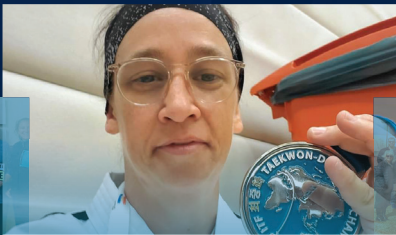

TISSUE DONOR - MARC

Tissue donors create a legacy, each one helping heal up to 75 people through the altruism of their tissue gifts. "Life really does go full circle... and the donation of life is what keeps this circle spinning." - Linda, Marc's Mother

DIANA'S STORY

TISSUE RECIPIENT - DIANA

"When I first tore my ACL, I never believed that I would get back to where I'm at, and my donor's selflessness gave me that opportunity."

MORE WAYS TO HEAL with Enhanced Human Tissue Products

AlloSource partners with medical professionals and biomedical companies who share our drive for industry innovation and production excellence in the use of allografts for medical advancements. Our customers have access to more than 200 types of allografts for use in various surgical specialties.

FEATURED PRODUCTS

AlloMend[®] ACELLULAR DERMAL MATRIX

Strong and flexible acellular dermal matrix for demanding soft tissue repair and reconstruction.

PureSkin[™] SPLIT-THICKNESS DERMIS

Split-thickness dermis used as a temporary bridge to reconstruction in severe burns requiring skin grafting.

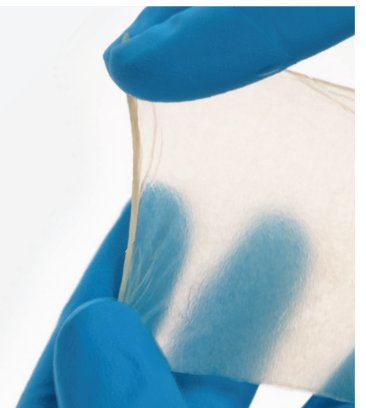

AlloFuse[®] SELECT CELLULAR BONE MATRIX

Cellular bone allograft used for general bone grafting applications in orthopedic procedures.

AlloWrap[®] AMNIOTIC MEMBRANE

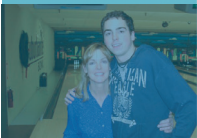

Dual-sided amniotic membrane designed to provide a biologic barrier following surgical repair.

WORKING WITH PURPOSE to Help Others

AlloSource offers more than just a job by providing meaningful work at a life sciences company where employees take pride in working toward a common purpose of positively impacting lives, while achieving personal and business goals.

Our more than 500 employees operate out of a 160,000-square-foot headquarters in Centennial, Colorado, complete with 37 clean rooms for processing, multiple laboratory spaces and expanded administrative offices. We also have several regional distribution offices across the U.S. All employees work within the strict standards for the U.S. Food and Drug Administration and the Association for Advancing Tissue and Biologics.

WATCH
TONY'S STORY

EMPLOYEE - TONY

"AlloSource offers great training and I have the opportunity to work with great people every day in a mission-driven environment."

AlloSource, a life sciences organization, helps restore patient functionality by transforming the gift of human tissue donation into enhanced medical products that enable a life of movement, health, and wellbeing. We partner with medical professionals and biomedical companies who share our drive for innovation and quality in the use of human tissue allografts for medical advancements. Headquartered in Centennial, Colorado, we have served a global marketplace since 1994.

MISSION

Enabling patient movement, health, and wellbeing by transforming the gift of donated human tissue into enhanced life sciences products.

VISION

To reinvent how human tissue is used to treat conditions and cure diseases, facilitating a person's ability to thrive.
